SUPPLEMENTAL EXAMINER'S AMENDMENT

A supplemental examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Hugh Wang on November 3, 2008.

The application has been amended as follows:

IN THE CLAIMS:

Add new claim 96:

--Claim 96. (New) A medical device, comprising at least one isolated mammalian anti-Dengue virus antibody having at least one variable region comprising SEQ IN NO: 4, wherein said device is suitable to contacting or administering said at least one anti-Dengue virus antibody by at least one mode selected from the group consisting of parenteral, subcutaneous, intramuscular, intravenous, intrarticular, intrabronchial, intraabdominal, intracapsular, intracartilaginous, intracavitary, intracelial, intracelebellar, intracerebroventricular, intracolic, intracervical, intragastric, intrahepatic, intramyocardial, intraosteal, intrapelvic, intrapericardiac, intraperitoneal, intrapleural, intraprostatic, intrapulmonary, intrarectal, intrarenal, intraretinal, intraspinal, intrasynovial, intrathoracic, intrauterine, intravesical, bolus, vaginal, rectal, buccal, sublingual, intranasal, and transdermal.--

Examiner's Comment

In the notice of allowability of August 11, 2008, the examiner indicated that restriction between the antibody claims and the medical device comprising the antibody was proper. However, the restriction between the two inventions is withdrawn. The medical device of claim 15 (cancelled in the examiner's amendment) is rejoined with the elected invention and is now presented in new claim 96.

Conclusion

Claims 1, 2, 9, 19 and 96 are allowable.
